WHO IS YODA? THE BASICS FROM THE STAR WARS WIKI

According to the **Star Wars Wiki Yoda** page

(often referred to as Wookieepedia), Yoda was a male Jedi Master who served on the Jedi High Council for centuries. He was renowned for his unparalleled wisdom, extraordinary power in the Force, and his unique method of teaching. Born in 896 BBY (Before the Battle of Yavin), Yoda lived to be 900 years old, witnessing the rise and fall of countless governments, the near extinction of the Jedi Order, and the ultimate redemption of the galaxy. His species remains a mystery—a deliberate choice by creator George Lucas to emphasize that wisdom and strength can come from the most unexpected forms.

The **Star Wars Wiki** **Yoda** entry highlights

that he was a member of an unknown species, characterized by his small stature, green skin, and three-fingered hands. Despite his advanced age, Yoda was a master of lightsaber combat, particularly Form IV (Ataru), which relied on acrobatic leaps and powerful strikes that belied his physical appearance. His iconic weapon was a green-bladed lightsaber, which he wielded with breathtaking precision.

Yoda's Role in the Prequel

Trilogy

In the prequel films—*The Phantom Menace*, *Attack of the Clones*, and *Revenge of the Sith*—Yoda is portrayed as the wise but increasingly weary leader of the Jedi Order. The **Star Wars Wiki Yoda** resource details his interactions with young Anakin Skywalker, his grave doubts about training the boy, and his eventual regret over the Jedi's blindness to the Sith threat. It was Yoda who sensed the shroud of the dark side descending upon the galaxy, and it was Yoda who fought Emperor Palpatine in a climactic battle in the Senate chamber.

One of the most cited facts from the **Star Wars Wiki Yoda** is his

famous quote: "Do or do not. There is no try." This mantra has transcended the screen, becoming a life philosophy for millions of fans. The wiki also clarifies that Yoda's reversed sentence structure (e.g., "Much to learn you still have") was not an affectation but part of a rich characterization that made him instantly recognizable.
